### **ACTION FOR YOU ALL YEAR ROUND**

What we have achieved together

#### **Delivering Flood Resilience**

Pieter secured funding for many local community led schemes. Birdham's Church Lane scheme was a major example. Construction of Earnley's extensive Bookers Lane Relief Channel, protecting up to 40 homes, was financially supported by local residents, the County and District Councils, and the Environment Agency. Schemes were introduced in Itchenor and in West Wittering. Sidlesham has introduced nine schemes. There are further applications pending, and Pieter wants to hear of any additional local concerns or calls for better flood protection.

#### **Inadequate Foul Drainage Infrastructure**

High rainfall and high groundwater levels are affecting many residents homes in our lower lying areas. Working with officers and colleagues in the County and District Councils, Pieter will continue to press the local authorities and the operator for action.
